

# 1 Executive Summary

IT6 gathered information about on-line training modules of computer codes developed within the ETSF. According to the objectives relevant to this deliverable, 2 training modules have been collected and made available through our ETSF website: *Abinit* and *Octopus*. The training modules being, however, intimately linked to the codes, the main hosting of the training material is still, today, the official web page of the computer codes.

IT6 has worked, in order to reach the objectives of this deliverable, in collaboration with the main developers of the computer codes, as well as with the ETSF website developers team.
